Regulation of Excessive Interest Charged

The Company has laid down appropriate internal principles and procedures in determining interest rates and processing and other charges. The rate of interest to be charged depends much upon the gradation of the risk of borrower viz. the financial strength, business, regulatory environment affecting the business, competition, history of the borrower etc. The rate of interest and total interest amount to be charged over complete tenure of loan will be communicated so that the borrower is aware of the exact interest liability that would be charged to the borrower.
